Research Assistant Position under TiH Project

Title: RA Position in Computer Vision, NLP and Machine Learning

Description: We expect the candidate to know the following:

(i) Programming languages: Python
(ii) Hands-on experience with DL frameworks such as PyTorch/TensorFlow and models such as CNNs, transformers like BERT and its variants

The selected candidate will work on various problems on object recognition with the Visual Conception Group at IIIT-Delhi. In particular, the problems involve the broad area of object re-identification using natural language and related natural language based retrieval tasks.

Duration: 1 year, with provision of extension

Program Benefits:
Stipend as per Institute norms
Academic and industrial professional development
Interaction with world-renowned researchers
Publications in high impact venues

Eligibility:
The applicant should have:
- A bachelor's/master's degree in computer science, or, electronics and communication engineering, or other relevant discipline
- Strong programming skills.

The position is available immediately. Application should include a CV (PDF format, at the most 2 pages).

Applications must be sent to subramanyam@iiitd.ac.in with subject "RA application".
